*All ranges are based on 2014 FPL guidelines.*

The coverage gap means that a person makes too much money to qualify for Medicaid and not enough to receive financial assistance (tax credits) through the health insurance marketplace.

People who fall in the coverage gap include working parents, low-wage workers, and some veterans.

*If you are a person who falls in the coverage gap:*
- Share your story with Georgians for a Healthy Future.
- Contact your legislators and tell them to close the coverage gap by expanding Medicaid.

**Lower Income**
- incomes that qualify for Medicaid

**Coverage Gap**
- incomes in between which don’t qualify for Medicaid or tax credits

**Higher Income**
- incomes that may qualify for tax credits (subsidies)
