## FOR IMMEDIATE RELEASE

Parent to Parent of Georgia Recognized as Honorable Mention for Georgia's Best in Family Services

Statewide Award Highlights P2PGA's Commitment to Supporting and Connecting Families

Atlanta, GA — December 8, 2025 — Parent to Parent of Georgia (P2PGA), a trusted nonprofit serving families of children and young adults with disabilities and special healthcare needs, has been named an Honorable Mention recipient for Georgia's Best in Family Services—a distinction that celebrates organizations making extraordinary contributions to the well-being, stability, and connectedness of families across the state.

For over 40 years, P2PGA has stood alongside families during some of life's most challenging moments—offering guidance, emotional support, and reliable information so no parent has to navigate complex systems alone. This recognition honors not only the organization's impact, but the heart of its mission: connection changes everything.

“At our core, we believe every family deserves to feel seen, supported, and connected,” said Latoya Palmer-Addy, CEO of Parent to Parent of Georgia. “This honor reflects the thousands of families who have trusted us with their stories, their fears, and their hopes. It also recognizes the staff, parents, and volunteers who are the bridge between confusion and clarity, isolation and community, fear and empowerment.”

P2PGA's honorable mention highlights the organization's statewide efforts to ensure families can access what matters most:

- Connection to someone who understands
- Connection to accurate, timely resources
- Connection to community and hope

Each year, Parent to Parent of Georgia responds to more than 7,000 family requests—from early diagnosis and early intervention questions to school advocacy, healthcare navigation, transition planning, and peer-to-peer emotional support. The nonprofit's signature programs, including Supporting Parent matches, the Roadmap to Success, and extensive training opportunities, reflect a simple truth: when families are connected, they thrive.

“This recognition celebrates the heart of our mission and the meaningful impact we strive to make every day for Georgia families with loved ones who have disabilities or special healthcare needs from birth through 26”, said Jalessa Holden, Vice Chair of Parent to Parent Board of Directors. She added “we proudly reaffirm our commitment to ensuring that no family ever has to navigate the medical or educational support system alone.”

**FOR IMMEDIATE RELEASE cont.**

As P2PGA looks ahead, the organization remains committed to expanding its reach, especially among families facing barriers. This recognition comes at a pivotal time as the nonprofit works to strengthen statewide partnerships and ensure that every Georgia family, regardless of background or circumstance, can access compassionate, knowledgeable guidance.

“Connection is where possibility begins,” added Palmer-Addy. “We’re honored to receive this recognition, and even more honored to continue walking alongside Georgia’s families, one call, one conversation, and one connection at a time.”

**About Parent to Parent of Georgia**

Parent to Parent of Georgia provides support, information, and training to families of children and young adults, birth through 26, who live with disabilities or special healthcare needs. Through one-on-one support, resource navigation, training programs, and statewide partnerships, P2PGA strengthens families and helps them navigate education, healthcare, and community systems with confidence.
