## FOR IMMEDIATE RELEASE

Parent to Parent of Georgia Awarded Meadows New Foundation Grant to Expand Outreach

and Support

Strengthening Local Connection, Access, and Guidance for Families Navigating Disability

Atlanta, GA — December 1, 2025 — Parent to Parent of Georgia (P2PGA) is proud to announce it has been awarded a grant from The Meadows New Foundation (MNF), a philanthropic organization dedicated to strengthening communities and improving outcomes for children and families. The foundation serves Toombs, Wheeler, and Montgomery counties. This investment will reinforce P2PGA's ability to support thousands of Georgia families who are raising children and young adults with disabilities or special healthcare needs.

For over 40 years, P2PGA has served as a trusted partner to families raising children and young adults with disabilities or special healthcare needs. The MNF grant strengthens this mission by bringing deeper, more intentional outreach to communities where access is limited and the need for connection is significant.

“Families in rural areas often navigate disability with fewer support networks and less access to information,” said Latoya Palmer-Addy, CEO of Parent to Parent of Georgia. “This grant allows us to meet families where they are in Toombs, Wheeler, and Montgomery counties—offering connection, understanding, and guidance at the moment they need it most.”

Through this grant, Parent to Parent of Georgia will:

- Conduct targeted outreach to families, schools, service providers, and community partners.
- Strengthen individual connections between parents and trained Supporting Parents.
- Offer accessible local resources and training on education, healthcare, and service navigation.
- Provide culturally and geographically responsive support to ensure families receive guidance that reflects their community's needs.

This new funding arrives at a time when families across Georgia are seeking compassionate, accurate, and accessible support—no matter where they live. Parent to Parent of Georgia is committed to making sure families in Toombs, Wheeler, and Montgomery counties have a clear point of connection and a trusted partner on their journey.

## FOR IMMEDIATE RELEASE cont.

Palmer-Addy added, "Connection is the heart of our work. This grant strengthens our ability to reach families who have historically been under-resourced and ensures they no longer navigate disability systems alone."

### About Parent to Parent of Georgia

Parent to Parent of Georgia provides support, information, and training to families of children and young adults, birth through 26, who live with disabilities or special healthcare needs. Through one-on-one support, resource navigation, training programs, and statewide partnerships, P2PGA strengthens families and helps them navigate education, healthcare, and community systems with confidence.
